RATIONALE OF THE WORKSHOP

Knowledge creation and research are critical in growing and sustaining a large and vibrant economy, uplifting society, and continuously inspiring a nation to achieve even greater heights. The National Education Policy (NEP) 2020 is focused on research based individualized learning. The extra mural competitive research funding is important to catalyze quality academic research. Today, the criticality of research is more than ever before, for the economic, intellectual, societal, environmental, and technological health and progress of a nation. It is important to train faculty members and research scholars for writing good quality research proposals.

OBJECTIVES OF THE WORKSHOP

The main objective of the programme is to facilitate the effective implementation of the new education policy. The specific objectives of the programme are as follows:

- (i) To foster the culture of outstanding peer-reviewed research.
- (ii) To ponder over the skills needed for writing good quality research proposals.
- (iii) To familiarize participants about the working of national and international research funding agencies.

PEDAGOGY

The pedagogy of this programme includes delivering online interactive lectures by subject experts.

PARTICIPANTS

The faculty members and research scholars can participate in this workshop.
