Sub: Indo-Belgian Research and Technology Cooperation Calls for Proposals- Support of Networking Activities (project period 2022-25).

Please find enclosed herewith the copy of notification for Proposals – Support of Networking Activities (2022-25) invited by Indo-Belgian Research and Technology Cooperation.

Further, the Vice-Chancellor has desired that the University Teachers should apply for more funding to the agencies through Research Projects and should have a positive approach towards Research & Development.

Therefore, you are requested to get it noted from the faculty members in the Department and encourage them to submit more proposals for Research Projects/Schemes as and when invited by various funding agencies.

The last date for submission of online Proposals, invited by Indo-Belgian Research and Technology Cooperation, is 17.09.2021. The detailed process for applying may be obtained from the attached notification and website www.onlinedst.gov.in.

Ahli Khan

2. OSD to Vice-Chancellor, M.D. University, Rohtak (for kind information of the Vice-Chancellor).

Indo-Belgian Research and Technology Cooperation

CALL FOR PROPOSALS: SUPPORT OF NETWORKING ACTIVITIES

CALL: 25th June 2021 (project period: 2022-25)

CLOSING DATE: [17thSeptember 2021]

For India: [17.00 hrs]

For Belgium: [15.00 hrs] C.E.T. (Central European Time)

Objectives:

Within the framework of the Agreement between Belgium and India on cooperation in the fields of science and technology and the fifth 'Joint Commission' meeting on 18th January 2021, it was decided to organize a 4th call for proposals for networking activities by the Belgian Federal Science Policy Office (BELSPO), the Indian Department of Science and Technology (DST) and Indian Department of Biotechnology (DBT).

This Networking call co-funded by both parties aims at supporting exchanges that leverage long term research cooperation between multiple Belgian and Indian Research institutions, based on existing infrastructure, with significant impact on a priority research area.

Application based on relevant themes as mentioned below should be sent to DST or DBT, respectively.

Focus areas with DST:

- Space, including astronomy, solar physics and remote sensing
- Marine sciences (Except Bio concept)
- Geology
- Cybersecurity

Focus areas with DBT

- Marine biotechnology (organisms for industrial use, bioprospecting for bioactive compounds from marine microorganisms, algae, seaweeds, fish and crustacean farming);
- Life sciences with focus on micro-organisms (Anti-Microbial Resistance with One Health approach and environmental-bioremediation);

Who can apply?

- **For BELSPO**, networking proposals may be submitted by Belgian university institutions, public scientific institutions, non-profit research centres. The participation of Federal Scientific Institutions is encouraged. For equal scientific quality of submitted proposals, the preference will be given to consortiums with participation of Federal Scientific Institutions.
List of Federal Scientific institutions: see [annex 1](#).
- **For India**, academician and scientists who already have grants on research project funded by science funding agencies. In case of need, partner search may be supported by the following tool: <https://euraxess.ec.europa.eu/worldwide/india>.

What kind of activities will be supported?

- The networking activities may include the organisation of a joint seminar or workshop, experts' visits, joint lab or joint field exchanges.
- They should aim to enhance the scientific cooperation between the researchers of the partnering institutions in both countries and to contribute to a sustainable cooperation (e.g. via joint research projects) beyond the period of networking.
- The added value for both partners should be explicit in the proposals.
- We propose a maximum for total involved partners: 5 (if relevant, preferable balanced at both sides).
- Duration of projects: 2 to 3 years maximum.
- Start of the networking activities: January 2022.
- End of the networking activities: December 2025 (at latest).

Evaluation of proposals and selection at national and bilateral level:

Proposals will be initially evaluated at national level and these evaluations are not mandatory for the final decision. Subsequently, the assessment will be carried out parallel at BELSPO, DST/DBT and negotiate for a joint selection.

Proposals will be assessed according to the following evaluation criteria:

- Scientific excellence of the proposal/ Novelty
- Qualification of the applicants (network)
- Synergy/Complementarity of partner Nodes and potential for knowledge transfer
- Expected research outputs and capacity to meet the final deliverables
- Enhancing training human resources
- Added value of the networking activities
- Budget adequacy
- Capacity of the network to self-sustain at the end of the funding period.

Only applying Institutions with a proven record of research excellence will be considered for selection and support.

How will the proposals be selected?

Once the call is closed and all proposals are examined according to the eligibility criteria the eligible proposals are subjected to an evaluation process.

Proposals will be evaluated both in Belgium and in India; BELSPO and DST/DBT will organize parallel evaluations.

In accordance with the principle of scientific excellence, with the quality of the network and the adequacy of resources and with the added value of the proposal in general, the final selection will be jointly made by DST/DBT and BELSPO.

BELSPO will inform the Belgian applicants of the joint selection. DST/DBT will inform the Indian applicants of the joint selection.

Other requirements:

- One PI/Coordinator each from India and Belgium.
- Additional Co-PIs/Partners (up to 4) on each side are also allowed.
- The Coordinator and Partners should be either scientists or faculty members employed by government-recognized universities, academic institutes, or national research and development laboratories or institutes. The Coordinator and the Partners must have proven high scientific reputation.

- Proposals must be submitted by each scientific Coordinator, who will be wholly responsible for the project and in charge of distributing financial resources among partners according to the established plan of activities.
- The project must be clearly centred on a well-defined research activity with wide perspectives and potential applications.
- The Networks call do not imply the creation of new physical infrastructures (e.g. research facilities, buildings) but are network-based projects whose purpose is to join forces to face common scientific and technological challenges as well as to stimulate fresh interaction for long term even beyond the call duration.
- All partners must have an intellectual and financial stake in the activities.
- Proof of existing financial resources available to cover the costs of infrastructure and equipment has to be provided with the proposal.

Programme requirements:

- Coordinators are responsible for submitting annual scientific and financial reports in order to be eligible for continued funding.
- Coordinators are also responsible for the technical and administrative coordination of the Network.
- Neither Coordinator nor Partner should be retired or planning to retire during the period of the proposed project.

How will support be granted?

The funding of the bilateral networking activities is based on the principle of reciprocity. Each country finances the costs for activities carried out on its territory (e.g. the organisation of study visits, seminars, workshops, setting up of joint experiments), whereas the international travel costs are borne by the respective sending country.

Research activities as such will not be supported by this call; they are financed in the original project or by other funding resources. As the present call concerns topping up grants, the proposed funding should be used exclusively for networking activities. The maximum budget per proposal to be granted to the Belgian partner is 35.000 EUR or up to Rs. 35 Lakhs to Indian partner. On the Indian side, DST/DBT will provide funding support to the Coordinating Indian institute. Funds to other Indian nodes would be provided through the Coordinating Indian Institute. Institutional Overhead and contingency support will be determined in accordance with the specific norms of DST/DBT.

How to apply?

Project proposals must be jointly prepared by the Belgian and Indian Coordinators using the application forms that can be downloaded from the BELSPO and DST/DBT websites. Each of the two coordinators will submit the application form, duly filled-in and signed, to their respective funders (BELSPO and DST/DBT). In both countries, the forms shall be signed by the two coordinators, as well as by the legal representatives of both applying Research Institutions to which they belong. Project proposals submitted to only one of the two Parties will not be accepted.

Applications are to be submitted both to BELSPO by the Belgian coordinator via the topping-up grant submission dossier by e-mail (in 'Word' and in 'pdf', with signatures). Deadline for submission: 17th September 2021 (at 3 p.m. in Belgium).

Indian applicants seeking for funding from DST (on Space, including Astronomy, Solar Physics and Remote Sensing; Marine sciences (Except Bio concept); Geology; Cybersecurity) can download the proposal formats from website <https://onlinedst.gov.in> and should submit completed application form

and all relevant information through e-PMS portal of the DST. The proposal must be submitted to DST through the e-application system provided at <https://onlinedst.gov.in> with deadline of 17th September 2021 by 5 p.m. Additionally, Indian Applicants are also requested to send hard copies to DST (Dr. Sibashisa Dash, Scientist C, DST) through proper channel.

Indian applications seeking for funding from DBT (on Marine Biotechnology and Life Science) are required to submit the complete application to Dr. Abhishek Singh (Scientist C, DBT) by e-mail (in 'Word' and in 'pdf', with both side signatures). Deadline for submission: 17th September 2021 (at 5 pm).

It should be ensured that application with identical title has been submitted by his/her Belgian counterpart by due date. Proposal (seeking fund from DST) not submitted through e-PMS portal for by due date will not be considered.

Both sides have different formats. Indian applicant should fill the format from Indian website. Belgian side applicant should fill the format from Belgian website.

**APPLICATION FORM
to be filled-in in English**

For Use by DST/DBT
Area:
Sl.No.....
Date of Receipt

**Topping-up Grant
SUBMISSION DOSSIER**

A. PROJECT IDENTIFICATION

1. Title of the Project:
2. Duration of the Project in months:
3. Field of Science & Technology covered by the proposal:
(Please specify the exact area as given in the call)
Key words qualifying the scope of the proposal:
4. Project Investigators (PI) & Collaborating Institutions

	<u>Indian</u>	<u>Belgian</u>
Name of PI Designation Date of Birth Institute Contact Address Telephone No. : Office Residence Fax No. e-mail Website		
Name of the Co-Investigator(s) Designation Date of Birth		

Institute		
Contact Address		
Telephone No. : Office Residence		
Fax No.		
e-mail		

B. TECHNICAL INFORMATION

- Objectives of the Project: (What will you achieve with the project?)
- Justification for collaboration: (Why do you want to make the project as a joint Indo-Belgian project?)
- Brief information about national and international scenario in the proposed area of research and relevance of the project:
- Scientific & technical description of the project including Methodology, Research plan, Scientific Argumentation, Novelty, Complementarity of both sides, (**max. 600 words**) (Added value of the proposed network, specific R&D cooperation topic(s), expected results)

5. **Plan of work**

Time Schedule	Indian Responsibilities	Belgian Responsibilities
1st Year		
2nd Year		
3rd Year		

6. Number of **exchange visit** required to achieve the Project Objectives (Year wise)

Period	India to Belgium		Belgium to India	
	Number	Duration	Number	Duration
1st Year				
2nd Year				
3rd Year				

6. **Expected results of this cooperation** (e.g. joint publications, patents etc.)
7. **Information about ongoing national projects and overlapping of objectives, if any.** (Pls must inform in brief about ongoing national project, if any and how Indo-Belgian collaboration will help them in bridging the research gap while executing their ongoing national projects.)
8. **Available resources at collaborating institutions:** (Pls state whether necessary infrastructure support available at both Indian and Belgian institutions to carry out the research in the proposed area.)

9. Information about completed projects under the Indo-Belgian Executive Programme of Cooperation, if any: (PIs inform brief outcome of the earlier collaboration with total number of joint publications)

10. Bio-data of Indian and Belgian PIs to be appended in about 2 pages each.
 [The description should highlight the expertise of the PI(s) in the proposed field of work supported by citing relevant latest publications only].

C. ADMINISTRATIVE & FINANCIAL INFORMATION

1. Project Cost

BUDGET (requested budget by the Indian side)

	1 st Financial Year	2 nd Financial year	3 rd Financial year	Total
Mobility				
Manpower (Research Fellow)				
Workshops				
Contingency				
Total				

Note: No other support like consumable or equipment etc should be expected or proposed under the Networking programme.

The Project Leader is required to submit periodic reports and its continuation in the next year would depend upon its progress assessed by DST/DBT & BELSPO. At the end of each financial year the Indian Project Leader is also required to submit the Utilization Certificates and Statement of Expenditure in prescribed format to DST/DBT.

2. Signatures of the Project Investigators & Co-investigators

INDIAN

BELGIAN

3. Declaration from the Heads of the Collaborating Institutions:

It is certified that:

- i) The Institutions agree to participate in this Joint Research Project;

- ii) The Institutions shall provide infrastructure & necessary facilities for implementing the joint project;
- iii) The Institutions assume to undertake financial & other management responsibility for the part of the project work to be carried out at their institution; and
- iv) The back-up funding for consumable etc. is available to this project.
