### UNIT – III

5. Write a letter to the editor of a national daily expressing your concern over increasing noise pollution in the cities. 14

6. Read the passage and answer the Questions that follows : 14

Self-sufficiency implies that a country produces all the goods and services it requires within the country itself without depending on others. Self sufficiency thus rules out imports. Self-reliance, on the other hand, implies that a country generates sufficient surplus to buy what it needs and therefore, it does not depend upon other countries for the resources of funds needed to acquire them. While self-sufficiency rules out imports, self reliance allows a country to import provided it has the capacity to pay for it.

No country can really be completely self-sufficient and dispense with all imports. This is not possible because, Nature while making an endowment of natural resources in the world did not take into account the present political divisions named as countries. No country, is therefore completely self- sufficient in this sense. But a country can try to become self- reliant by paying for everything it imports. All developed countries are in a position to produce and export so as to pay for all their imports and are therefore self-reliant. Developing countries, however, are not generally, self- reliant since their exports are insufficient to pay for their imports.

**Questions :**

- (i) What is meant by self- sufficiency ? 2
- (ii) What does self reliance imply ? 3
- (iii) Point out the difference between self-sufficiency and self- reliance. 3
- (iv) Why can't any of the countries be self-suffient in all manners ? 3
- (v) Why are the developed countries self-reliant while developing countries are not ? 3

#### UNIT – IV

4. Read the given passage carefully and answer the questions that follow :

But I do recommend some game as a part of recreation. As long as I could see to play as sufficient leisure, I enjoyed immensely the game of court tennia, a very ancient game, requiring activity as well as skill, a game in which Americans may take interest and some pride, because for the first time at any rate in the history of the game an amateur is champion of the world and that amateur is an American. The English are sometimes criticized for paying too much attention to games. Football is a national game in America as well as in England but I do not suppose that either you or we think that our soldier fought any worse in the war of having been fond of football. I put games definitely as a desirable part of recreation, and I would say : I have one or more games of which you are fond, but let them at any rate in youth be games which test the stamina, the staying power and the activity of the whole body, as well as skill.

Sport shall be mentioned next. I have enjoyed it, fishing not from a boat but from one's feet, either on the bank or wading deep in the stream, is a glorious and sustained exercise for the body, as well as well as being an exciting sport; but many of my friends do not care.

**Questions :**

- (i) According to the writer, games are a part of ..... 3
- (ii) What does court tennis require ? 3
- (iii) Which country does have football as the national game ? 3
- (iv) What are the reasons for the writer to recommend games for the youth ? 3
