INTERNATIONAL SEMINAR  
ON  
**Psycho-Social-Economic Change: Agencies and  
Pathways to Atmanirbhar Bharat**

(16-18 January, 2023)

India is in midst of a transformation phase. The economic liberalization initiated in the early nineties, and the new economic policies of the current government has put India on the pathway of industrial growth, technological transformation, and modernization. The emerging economic scenario and digitalization are disrupting old business models, it is affecting individuals and society sociologically, psychologically, economically, and ushering in socio-economic paradigm shifts. The corona pandemic which hit the world in 2020, and is still affecting the world, has also created a socio-economic, socio-psychological paradigm shift.

A multi-pronged approach is required to map the socio-economic change and growth. Agencies and Pathways which would facilitate the socio-economic change & growth story need to be identified. The seminar would be a great platform to have a robust debate about the direction of development in order to move towards the ultimate goal of building 'Atmanirbhar Bharat'. The organizers would like to invite the submission of both theoretical and empirical papers relating to all aspects of sustainability, environment and social transition.

### Subthemes:

*Natural resources and socio-economic change*  
*Environmental issues, Environmental behaviour and Biopsychosocial change*  
*Degradation of natural resources and health problems caused by pollution*  
*Agricultural and Socio-economic change*  
*Eco-investments and Transition to green economy*  
*Policies for Sustainable development*  
*Socially Responsible Investment (SRI)*  
*Social issues and Bio-psycho-socio-economic perspective to change*  
*Political perspective to economic development and social change*  
*Positive Youth development*  
*Positive Schooling*

**Mode of participation:** Hybrid (Offline/ Online)
