About University

Maharshi Dayanand University (MDU) is one of the leading research-oriented University in India. The University has a well-defined Research Promotion Policy aimed to foster a culture of outstanding peer-reviewed research and houses state-of-the-art academics and research facilities to promote advance research. Maharshi Dayanand University is NAAC Accredited A+ Grade State Government University in Rohtak, Haryana, about 75 KM from Delhi on Delhi-Hisar National Highway (NH- 10). Haryana Legislative Assembly established it in 1976 to promote Inter-Disciplinary Higher Education and Research in Environmental, Ecology, and Life Sciences. It offers educational and research programs through its 38 Departments with more than 490 Institutions / Colleges of General Education, Engineering Technology, Computer Sciences and Management Sciences affiliated to the University.

About Department

Department of Computer Science & Applications was established in 1990 under the Faculty of Physical Sciences with only one course i.e. Post Graduate Diploma in Computer Applications. From that day, Department has shown a commendable progress and now offering MCA, M.Sc. (Computer Science), M.Sc. (Data Science & Machine Learning) & Ph.D. (Computer Science) courses to the students. Department is one of the pioneer Department of the University and has touched almost every aspect of academics & extracurricular activities. Department has proven its potential in research domain also with premium publications in SCI, SCOPUS, Web of Sciences indexed & many other reputed journals. Department also has handsome number of books edited & written by worthy faculty members referred country wide in almost every University. There are 10 regular Teaching Faculty members with two Professors, three Associate Professors & five Assistant Professors.

About Conference

Conference on Computational Intelligence and Data Science will be a premier gathering of experts. The conference provides a platform for professionals, academicians, and students to connect, learn from each other, and explore the latest advancements and research in this area. Computational Intelligence and Data Science is revolutionizing the way we live and work, transforming everything from healthcare and finance to transportation and entertainment. As this technology continues to evolve, it's important for researchers, engineers, and policymakers to come together to share knowledge and discuss the challenges and opportunities. The event will bring together experts from around the country to discuss the latest developments including Machine Learning, Deep Learning, Natural Language Processing, Computer Vision, Robotics, and more. The galaxy of keynote speakers, who are among the most respected and influential figures in this area, will be the highlight of the conference. They will provide insights and perspectives on the latest trends, technologies, and applications of Computational Intelligence. Participants will have the opportunity to present their own research and receive feedback from their peers. One of the most exciting aspects of the Conference on Computational Intelligence and Data Science is the opportunity to network with other professionals and experts in this area. The conference provides an excellent platform for attendees to connect with each other, exchange ideas, and build collaborations. This is an excellent opportunity for researchers, engineers, and policymakers to meet, learn, and grow together. The Conference will be conducted on March 21, 2023 (Tuesday) at Swaraj Sadan, MDU Rohtak, Haryana. Registration for the conference is now open, and we encourage you all to participate and register as soon as possible.

Call for Research Papers

We are pleased to announce a call for papers for the Conference on Computational Intelligence and Data Science. We invite researchers, engineers, and practitioners in this area to submit their original research papers for consideration. We welcome submissions on a wide range of topics, including, but not limited to:

- Deep Learning
- Natural Language Processing
- Computer Vision
- Cybersecurity and Privacy
- Network Security
- Cryptography
- Mobile App Development
- Big Data Processing and Management
- Data Mining and Clustering
- Predictive Modeling
- Computational Swarm Intelligence
- Game Theory
- Evolutionary Computing
- Fuzzy System
- Reinforcement Learning
- Data Visualization
- Data Engineering
- Time Series Analysis
- Bayesian Statistics
- Data-driven Decision Making
- Data Ethics
- Spatial Analysis
- Time-to-event Analysis
- Anomaly Detection
- Fake Profile Detection
- Network Analysis
- IoT Security and Privacy
- Industrial IoT and Smart Manufacturing
- Wearable Technology
- Robotics
- Blockchain and Cryptocurrency
- 5G Networks and Next-Generation Wireless Technologies
- Cloud Computing
- Sustainability
- Green Computing and other related areas.

Research Paper Submission Guidelines

- Submitted paper must be original and unpublished
- Authors must ensure the Similarity Index (Plagiarism) of the paper should not exceed 15%
- The research paper should be submitted in the format given below :
 - Length of full paper 4 to 6 pages
 - Maximum number of Co-authors: 4
 - Paper must be of A4 size with double column in MS Word
 - Font Style- Times New Roman
 - Font Size- Heading: 12, Subheading: 11, Text: 10, Line Spacing: 1.0
- Download MS Word Template for further details- [Click Here](#)
- Only Registered Participants will get the Certificate
