## **ABOUT THE SEMINAR**

Indian Economy is one of the fast-growing economies of the world. GDP point of view it is the fifth largest economy after USA, China, Japan and Germany. The GDP growth rate was reported to be slowing even negative for one year due to the adverse impact of COVID-19 pandemic. However, it has recovered and there is a need to do more for improving economic performance. Being the world's most populated country especially having larger share of young population, there are huge opportunities for the Indian Economy. At the same time there are some challenges such as under-utilization of available human resources, inadequacy of required capital, fiscal imbalances, income and wealth inequalities sector specific issues such as industry, trade and agriculture related problems that needs to be addressed in due time. Sustainable development is another major area where lots of challenges needs to be addressed. India has to take proactive steps in order to achieve the *Sustainable Development Goals*.

## **EXPECTED OUTCOMES**

It is expected that the Seminar will come some important conclusions and findings that will help the policy-makers and other stakeholders in overcoming the challenges of Indian Economy. How we can exploit the opportunities available at the national as well as internal level-suggestions will be forwarded. Panel discussions will be helpful in enhancement of knowledge and understanding of various key aspects and issues of Indian Economy.
