S KOREA AND JAPAN RESUME A SECURITY MEETING

US, allies conduct more drills in face of North Korean threat

Earlier, it conducted one of its most provocative weapons demonstrations

SEOUL: The United States

SEOUL: The United States, South Korea and Japan conducted a Joint missile defence exercise Monday in waters near the Korean Peninsula as they expand military training to counter the growing threats of North Koreas nuclear-capable missiles.

Last week, North Korea conducted one of its most provocative weapons demonstrations in years by flight-testing for the first time an intercontinental ballistic missile powered by solid propellants, as it pursues a weapon that's more red by solid propellants, as it pursues a weapon that's more red by solid propellants, as it pursues a weapon that's more ched to the continental United States.

North Korea's unprecedented run of weapons tests has so far involved more than 100 missiles of various ranges fired into the sea since the start of 2022 as the country attempts to build a viable nuclear arsenal that could threaten its rival neighbours and the United States. The South Korea-US-Japan training could trigger a belligerent response from North Korea, which condemns the United States' military drills with its Asian allies as invasion rehearsals.

Representational imgae

The North has used those drills as a pretext to accelerate its own weapons development, creating a cycle of itt-for-tat that has raised tensions in recent months. South Korea's navy said Monday's three-way naval drills took place in international waters off the country's eastern coast and focused on mastering the procedures for detecting, tracking and sharing information on incoming North Korean ballistic missiles. The one-day naval exercise involved an Aegis destroyer from each country. "The drills' goal is to improve our response capabilities against ballistic missilities."

siles and strengthen our ability to conduct joint operations as North Korea's nuclear and missile threats continue to escalate," Jang Do-young, a spokesperson of South Korea's navy, said in a news briefing. The United States and South Korea also launched drills Monday involving some 110 warplanes, including advanced F-35 fighter jets, that will continue through April 28. The US-South Korean aerial drills are designed to enhance combined airpower execution and train aircrews to successfully respond in com-

threats, according to the mil-itaries. The training events "reafirm the US's fronclad commitment to the ROK," the US seventh Air Force said in a statement, using the initials of South Korea's formal name, the Republic of Korea. Also Monday, South Korea and Japan resumed a security meeting of senior diplomats and defense officials following a five- year hiatus. The meeting is one of many recent events that show ties between Seoul and Tokyo are improving in the face of North Korea's evolv-ing nuclear threats after years of disputes over history and trade. During Monday's meeting.

Dring Monday's meeting,
South Korea's Defence Ministry said Seoul and Tokyo discussed North Korea's nucleaprogramme and a trilateral
cooperation with the United
States. The United States and
South Korea conducted their
biggest filed exercises in years
in March and have also held
separate naval and aerial drills
involving a US aircraft carrier
battle group and nuclear-capabattle group and nuclear-capabattle group and nuclear-capa-ble B-52 bombers. The North responded by dialling up its own testing activity. AGENCIES

Sudan battles intensify on 3rd day; civilian deaths reach 97

KHARTOUM: Sudan's embattled capital awoke on Monday to a third day of heavy fighting between the army and a powerful rival force for control of the country, as the weekend's civilian death toll rose to 97.

Altsrifies and shelling intensified in parts of Khartoum and the adjoining civo of Omdurman.

Rapid, sustained firing was heard near the military headquarters, with white smoke rising from the area. Residents hunkering down in their homes reported power outages and incidents of looting.

"Gunfire and shelling are everywhere," Awadeya Mahmoud Koko, head of a union for thousands of tea vendors and other food workers, said from her home in Khartoum.

She said a shell stuck a neighbour's house on Sunday killing al least three people. "We couldn't take them to a hospital or bury them." The clashes are part of a power struggle between

the commander of the armed forces, and Gen. Mohammed Hamdan Dagalo, the head of the Rapid Support Forces, a paramilitary group.

The two generals are former allies who jointly orchestrated an October 2021 military coup that derailed Sudan's short-lived transition to democracy.

Both men have dug in, saying they would not negotiate a truce, instead engaging in verbal attacks and demanding the other's surrender.

On Monday, Dagalo, whose forces grew out of the notorious Janjaweed militias in Sudan's Darfur segion not travel bimedit

multias in Sudan's Darfur region, portrayed himself in a statement on Twitter as a defender of democ-racy and branded Burhan as the aggressor and a "radical Islamist"

ney and oranneed Burnan as the aggressor and a "radical Islamist".

Pro-democracy activists have noted that both generals have a long history of human rights abuses. At the same time, both men have powerful foreign backers, making them potentially susceptible to mounting diplomatic pressure to end the fightings. Since fighting erupted on Saturday, 97 civilians have been kulled and hundreds have been wounded, said the Sudan Doctors' Syndicate, a pro-democracy group monitoring casualties. There has been no official word on the number of fighters killed.

Airbus and Air France face verdict over 2009 Rio-Paris crash

PARIS: A French court on Monday acquitted Airbus and Air France of manslaughter charges over the 2009 crash of Flight 447 from Rio to Paris, which killed 228 people and led to lasting changes in aircraft safety measures.

Sobs broke out in the court-room as the presiding judge read out the decision, a devastating defeat for victims' families who fought for 13 years to see the case reach court.

The three-judge panel ruled that there wasn't enough evidence of a direct link between decisions by the companies and the crash. The official investigation found that multiple factors contributed to the disaster, including pilot error and the keing over of external sensors called pitot tubes.

The two-month trial left families wasced with anger and disappointment. Unusually, even state prosecutors argued for acquittal, saying that the proceedings didn't produce enough proof of criminal wrongdoing by the companies.
