## DIRECTORATE OF DISTANCE EDUCATION

**Director** : **Dr. Nasib Singh Gill**

Realizing the important role of education in the overall national development, the Maharshi Dayanand University established a Correspondence cell in 1988 for imparting education through “Correspondence Course” leading to the award of B.Ed. degree. The University, with the passage of time and development of technology and requirement of Society, upgraded the Correspondence cell to the level of Directorate and expanded tremendously to offer a wide spectrum of courses through a network of Study Centers. With the amendment in the Maharshi Dayanand University Act in the year 2012, the Directorate restricted delivery of its courses to distance learners from its Headquarters and is providing opportunities for higher education to a large segment of population especially disadvantaged groups living in remote and rural areas, housewives and working people.

The directorate is creating, preserving, and disseminating knowledge to build competitive capability for holistic development of man and society. The various programmes offered by the Directorate range from conventional to professional as per needs of the area and employment opportunities available in the country. In order to meet growing demand of open and distance learning, the Directorate has acquired resources for further access to rural areas. The Directorate is contributing significantly towards achieving the national objective of providing quality education to one and all with a motto to reach the unreached by offering useful distance education programmes to learners belonging to different parts of the State/Country.

The Directorate is presently offering ten popular Undergraduate/Postgraduate programmes i.e. Bachelor of Arts (B.A.), Bachelor of Commerce (B.Com.), Master of Arts (Hindi, English, Sanskrit, Economics, Political Science, Public Admn.), Master of Science (Mathematics), Master of Commerce (M.Com.) for Distance learners based on carefully designed curriculum, well planned teaching learning strategies, effective student support system for an effective functioning and fair examination and valuation system. Online counselling has been provided to all the students during COVID-19 Pandemic period and also provided Online learning resources.

The Directorate also intends to offer Master of Arts (Journalism & Mass Communication, History) and Master of Library & Information Science Programmes through Open & Distance Learning mode and Master of Science (Mathematics) & Master of Commerce through Online mode from the academic session 2021-22.

The DDE is providing full support and service to its students, ensuring removal of difficulties at personal level so that the participation of the students in the programmes offered by the DDE becomes really effective and meaningful.

The Directorate has evolved the concept of “Students Support Services Camps (SSSCs)” to help and groom the distance learners in several ways. Student Support Service in open and distance learning system is quite different from other services. These services are not only confined to interactive counselling or solving the learner’s problems but also include to promote distance learning to address the issue of continuous upgradation of skills so as to produce manpower resources of the kind and the number required by society, to fulfill the expectations indicated in the National Education Policy-2020. In addition to the services already mentioned, the focus of the educators is also on learners’ personality development, inculcating soft-skills, career counselling & guidance and community education. Further, the SSSCs are aimed to facilitate learning, counselling and to solve the problems of the distance learners. Through SSSCs the learners get an opportunity to interact with the counsellors and the peer group.

Keeping pace with the advancing technology, best-in-class ICT infrastructure has been procured for education, research, and e-Governance. University Computer Centre houses a data center having 16 Blade Servers (Dual CPU – 16 to 24 core, with upto 256 GB RAM on each server) hosting more than 70 Virtual servers. More than 600 TB of unified storage is being used for CCTV surveillance and 25 TB of SAN storage for Student Life Cycle Management. The servers are running on Windows 2012/2016 Server datacenter edition in high availability mode. Database server (MS SQL Server 2012 Enterprise Edition and Web Server (MS IIS) uses 10TB IBM SAN Storage. SAP servers with 25TB SAN storage (20,000 IOPs) are all hosted locally. Video Management System Servers with 600 TB of Unified Storage manage 411 video surveillance cameras. Round the clock, Comprehensive Security and Surveillance Control Room monitor all these cameras.

The University has excellent unified communication and video conferencing infrastructure more than 900 have been conducted successfully in this period.

A Unified Threat Management Solution has been implemented to secure the network from hackers, for filtering unnecessary traffic, streamlining traffic by specifying priorities, and blocking unwanted sites on the 1G Internet connectivity provided by NKN using Fortigate 1500D, supported by Forti-Analyser 1000D. The Internal LAN having a backbone speed of 10G is governed by the Nexus 9505 (CISCO) core switch. The university network has more than 15KM Optical Fibre cables, 5000 I/O points, and nearly 500 enterprise-class secure controller-based Wi-Fi Access Points.

The University has developed and implemented its homegrown Admission Portal, Student Portal and ERP modules for employees, UTD & Colleges modules for Student Life Cycle Management, including fee management. The in-house development team manages the data center and develops and deploys solutions for the ad-hoc requirements of the university. The new Home-grown applications and ERP has been designed and developed by this team. Other software developed this year by the team include an Online admission portal for Foreign students and supernumerary seats in University Teaching Departments, an Online admission portal for Ph.D/M.Phil., student Portal, RR/CR Portal, LMS-DMS Portal for e-resources. A mobile app has been revamped by this team from where the University employees can download their Payslips, Salary statements, PF statement, Form-16, etc.

The University uses the latest technological advancement in the governance system and has already been acknowledged as a front runner in e-governance initiatives. The admission process to the various programs of University Teaching Departments and Directorate of Distance Education was made online.

- Students are given exercises with feedback throughout a lesson this will allow learners to check their progress, and to adjust their learning approach as necessary.
- In addition to traditional course materials, such as filmed lectures, readings, and problem sets students are exposed to:
- Swayam,
- E-PG Pathshala Covers the e-content in different subjects at postgraduate level. It is developed by UGC under the MHRD's Project - National Mission on Education through ICT (NME-ICT).
