Mike and Morris live in the same village. While Morris owned the largest jewellery shop in the village, Mike was a poor farmer. Both had large families with many sons, daughters-in-law and grand children. One fine day, Mike tired of not being able to feed his family, decided to leave the village and move to the city where he was certain to earn enough to feed everyone. Along with his family, he left the village for the city. At night, they stopped under a large tree. There was a stream running nearby where they could fresher up themselves. He told his sons to clear the area below the tree, he told his wife to fetch water and he instructed his daughters-in-law to make up the fine and started cutting wood from the tree himself. They did not know that in the branches of the tree, there was a thief hiding. He watched as Mike's family worked together. Mike's wife said to her husband, "Everything is ready but what shall we eat ?" Mike raised his hands to heaven and said, "Don't worry. He is watching all of this from above. He will help us". The thief got worried as he had seen the family was large and working together, so he decided to escape.

Quietly he climbed down when nobody was seeing and ran away, but he left behind the bundle of stolen jewels and money which dropped into Mike's lap. Mike opened it and jumped with joy to see the contents. They returned to the village. There was great excitement when they told everyone how they got rich. Morris thought that the tree was miraculous and this was nice and quick way to earn some money. He ordered his family to pack some clothes and went on a journey. They also stopped under the same tree and Morris started commanding everyone, as Mike had done. But no one in the family was willing to obey his orders. Being a rich family they were not used to working. Morris's wife said, "Everything is ready but what shall we eat ?" Morris raised his hands and said "Don't worry, he is watching us. He will help us". As soon as the finished saying, the theif jumped down from the tree with a knife in hand. Both had large families with many sons, daughters-in-law and grand children. One fine day, Mike tired of not being able to feed his family, decided to leave the village and move to the city where he was certain to earn enough to feed everyone. Along with his family, he left the village for the city. At night, they stopped under a large tree. There was a stream running nearby where they could fresher up themselves. He told his sons to clear the area below the tree, he told his wife to fetch water and he instructed his daughters-in-law to make up the fine and started cutting wood from the tree himself. They did not know that in the branches of the tree, there was a thief hiding. He watched as Mike's family worked together. Mike's wife said to her husband, "Everything is ready but what shall we eat ?" Mike raised his hands to heaven and said, "Don't worry. He is watching all of this from above. He will help us". The thief got worried as he had seen the family was large and working together, so he decided to escape.

Quietly he climbed down when nobody was seeing and ran away, but he left behind the bundle of stolen jewels and money which dropped into Mike's lap. Morris thought that the tree was miraculous and this was nice and quick way to earn some money. He ordered his family to pack some clothes and went on a journey. Mike and Morris live in the same village. While Morris owned the largest jewellery shop in the village, Mike was a poor farmer. Both had large families with many sons, daughters-in-law and grand children. One fine day, Mike tired of not being able to feed his family, decided to leave the village and move to the city where he was certain to earn enough to feed everyone. Along with his family, he left the village for the city. At night, they stopped under a large tree. There was a stream running nearby where they could fresher up themselves. He told his sons to clear the area below the tree, he told his wife to fetch water and he instructed his daughters-in-law to make up the fine and started cutting wood from the tree himself. They did not know that in the branches of the tree, there was a thief hiding. He watched as Mike's family worked together. Mike's wife said to her husband, "Everything is ready but what shall we eat ?" Mike raised his hands to heaven and said, "Don't worry. He is watching all of this from above. He will help us". The thief got worried as he had seen the family was large and working together, so he decided to escape.

Quietly he climbed down when nobody was seeing and ran away, but he left behind the bundle of stolen jewels and money which dropped into Mike's lap. Mike opened it and jumped with joy to see the contents. They returned to the village. There was great excitement when they told everyone how they got rich. Morris thought that the tree was miraculous and this was nice and quick way to earn some money. He ordered his family to pack some clothes and went on a journey. They also stopped under the same tree and Morris started commanding everyone, as Mike had done. But no one in the family was willing to obey his orders. Being a rich family they were not used to working. Morris's wife said, "Everything is ready but what shall we eat ?" Morris raised his hands and said "Don't worry, he is watching us. He will help us". As soon as the finished saying, the theif jumped down from the tree with a knife in hand. Mike and Morris live in the same village. While Morris owned the largest jewellery shop in the village, Mike was a poor farmer. Both had large families with many sons, daughters-in-law and grand children. One fine day, Mike tired of not being able to feed his family, decided to leave the village and move to the city where he was certain to earn enough to feed everyone. Along with his family, he left the village for the city. At night, they stopped under a large tree. There was a stream running nearby where they could fresher up themselves. He told his sons to clear the area below the tree, he told his wife to fetch water and he instructed his daughters-in-law to make up the fine and started cutting wood from the tree himself. They did not know that in the branches of the tree, there was a thief hiding. He watched as Mike's family worked together. Mike's wife said to her husband, "Everything is ready but what shall we eat ?" Mike raised his hands to heaven and said, "Don't worry. He is watching all of this from above. He will help us". The thief got worried as he had seen the family was large and working together, so he decided to escape.

Quietly he climbed down when nobody was seeing and ran away, but he left behind the bundle of stolen jewels and money which dropped into Mike's lap. Mike opened it and jumped with joy to see the contents. They returned to the village. There was great excitement when they told everyone how they got rich. Morris thought that the tree was miraculous and this was nice and quick way to earn some money. He ordered his family to pack some clothes and went on a journey. They also stopped under the same tree and Morris started commanding everyone, as Mike had done. But no one in the family was willing to obey his orders. Being a rich family they were not used to working. Morris's wife said, "Everything is ready but what shall we eat ?" Morris raised his hands and said "Don't worry, he is watching us. He will help us". As soon as the finished saying, the theif jumped down from the tree with a knife in hand. The thief stole everything they had and Morris and his family had to return to a village empty handed, having lost all their valuables that they had taken with them.
